Eden Family

Family Safety & Privacy Suite

“Safe AI for Kids. Total Visibility for Parents.”

COMING 2027 · JOIN THE WAITLIST

THE CHALLENGE

Kids are using AI whether parents like it or not — with no age controls, no content filtering, and no visibility. And every “free” family app harvests your children's data.

THE SOLUTION

Eden Family is a three-part family safety suite — safe AI with parental controls, a de-Google family browser, and private family communications. One privacy-respecting package, for the whole family. **Your family's data is never sold or trained on.**

WHAT YOU GET

- ▶ **Eden Family AI** — Child-safe AI chat with parent-configured guardrails and content filtering
- ▶ **Eden Family Browser** — De-Google privacy browser with tracker blocking and safe search
- ▶ **Eden Family Connect** — Private family email, calendar, contacts & tracker-blocking DNS
- ▶ **Conversation Visibility** — Full transcripts, topic blocks, and time-of-day & usage limits
- ▶ **Per-Child Controls** — Site allow/block lists, screen-time limits, and cross-device sync
- ▶ **One Parent Dashboard** — Every child, every app, at a glance — up to 6 family members

PRICING

TIER	PRICE	BEST FOR
Eden Family AI	\$12.99/mo	Child AI + parental controls
Eden Family Browser	\$7.99/mo	Private family browsing
Eden Family Connect	\$9.99/mo	Email, calendar & DNS
Family Bundle (all 3)	\$24.99/mo	20% savings — \$19.99/mo annual

Planned pricing · per family, up to 6 members · data never sold or trained on.

WHY AOCYBER

- ◆ **The only suite** covering AI interactions, private browsing, and family comms together
- ◆ **Built for the AI era** — real parental controls for how children actually use AI
- ◆ **Per-child controls + parent dashboard** — you define the boundaries, not Big Tech
- ◆ **Priced below Proton Family** while covering more ground
